**FEED YOUR PLANTS.
THEY'RE HUNGRY!**

NEW BED PREPERATION

Mix 1/2 cup of ColorStar into one cubic foot of planting media. Distribute the media at a minimum of four inches thick over the area to be planted. Place the plants and water thoroughly.

PLANTS IN THE LANDSCAPE

Topdress around each plant after planting or distribute over bed and till-in prior to planting.

- 1 lb or 1 cup will feed 50 flowers or 3 flats
- One 12.5 lb bag will feed 600 flowers or 33 flats
- One 25 lb bag will cover 312 square feet
- One 25 lb bag will feed 1200 flowers or 66 flats

CONTAINER GROWING PLANTS

Container Size	Application Amount	Topdress
1 gallon	4 Tablespoons	1 teaspoon
5 gallon	1/2 cup	1 tablespoon
10 gallon	2/3 cup	2 tablespoons
15 gallon	1 cup	1/4 cup
30 gallon	2 cups	1/2 cup

Topdress or incorporate ColorStar thoroughly throughout the planting media. Transplant the plants and water thoroughly.
